We just wanted to **thank** you and Paragon Publishing for managing our Sandy Ridge Construction (2005) LTD Magazine project. It turned out absolutely awesome. The feedback already is so positive from our subtrades and customers. The biggest comment is that it is so professionally done.

We are very confident that it will prove to be our very best advertising tool and the built-in pocket is really useful for holding our floor plans, contracts and business card. The presentation rack is also appreciated for displaying the magazine. Thank you.

David and I really appreciate the professional manner that Jim Thorton, (the photographer) handled himself in taking all of the photographs. Not inconveniencing our customers while taking the photographs was much appreciated.

Also we appreciate the professionalism that was displayed in dealing with our subtrades and suppliers. We feel it has strengthened our relationships with them and we know that this magazine will prove to be a great asset to their businesses also. Some have asked for extra copies of the magazine for their clients.

We know that this magazine will aid our business for years to come. Thank you so much and we look forward to dealing with you in the future and we will highly recommend Paragon Publishing to other businesses.

Sincerely,

Pamela Micku
